

Honors & Awards January Bulletin

Kathryn A. Schultz

Small things add up. Pennies turn into dollars. In terms of Honors and Awards – small projects add up to more hours, more miles, and more dollars. No service project is too small. Report even your smallest service project. You will be surprised how rapidly they add up.

Honors and Awards are judged according to Auxiliary size. Those Auxiliaries with less than 40 members are judged against other Auxiliaries with less than 40 members. Auxiliaries with more than 40 members are judged against other Auxiliaries with more than 40 members. Don't think you do not have a chance to be recognized.

We have 20 awards to issue. Remember, in order to qualify for an award, you must be revalidated. All your service reports must be in on time. One more service report is due May 5, 2020. Make sure you include even the smallest service. Send your reports to the proper individual.

Good Luck. Keep up the good work.
