ROSE SOLAK, CHILD WELFARE CHAIRMAN

MAY BULLETIN

Our youth volunteers are busy making blue ribbons for the children ward at Beaumont Hospital, attached to their Easter baskets. It's their way of expressing Thank You to their doctors and nurses.

By volunteering, young people experience the many blessing that come with giving service to others. They learn important life skills like responsibility, organization, leadership and caring. We also want them to develop traits such as empathy, honesty and consideration of others. They gain self-confidence when they know they made a real contribution to a special project. They are less likely to abuse drugs, alcohol or cigarettes or engage in destructive behavior. Getting children involved in volunteering is an ideal way to teach those positive traits. It's a wonderful feeling to know you have made a difference in someone's life.

If you are not able to leave your home or apartment, you may write a check, payable to Penrickton Center for Blind Children, earmarked it Gift Card Shower. Mail it to Child Welfare Chairman, Rose Solak, 5655 Melbourne, Dearborn Heights, and Mi. 48127. Don't forget to add your midyear totals on the first line.

I am looking forward to receiving you Child Welfare Final Reports, postmarked by May 5, 2020. Thank you for all that you do serving the children. Let's focus on the children of the future, they are our leader of tomorrow.

Sincere gratitude for your support and your generous donations to Penrickton Gift Card Shower project.

During this unprecedented challenging time continue to stay safe. I am looking forward to seeing you all soon.
