

Scholarship – July Bulletin

Hello everyone; I hope that everyone had a good summer and stayed healthy. I know that very little was done during the pandemic. It has been a rough year for everyone to get any projects started or finished; but this year I hope will be better and the projects that were started will be finished this year.

Lets get started for the year 2020-2021 with the Department project "Bookworms". I will continue with this project. I hope that every post will at least send in \$1.00 for every member, so that we can really get involved with getting out the scholarships that were not passed out this year. My intent is to try to give out at least 3; but I would like to double that for this year as none were given out last year.

I hope that when we meet again that we can get started on some new Scholarship project sfor 2020-2021. Let's keep the faith that we will see each other again in September. Don't forget that we will still have to do reports that are due by November 5th . Lets see if we can make up for the lost year and have a grand year to make up for the year that we lost.

Yours in Amvets Auxiliary
