

Pam,

Here is info from Ashley requested during our PAWS tour you may want to put in your next newsletter article:

"The lovely ladies on the AMVETS tour expressed an interest in making "snuffle mats" for our puppies and adult dogs. I found a good DIY website with instructions on how to make these and thought I could share it with them?"

The base is a rubber sink mat and can be found at most stores that sell kitchen goods including the Dollar Tree. The rest is just fleece strips and can be whatever color or pattern you like!"

This is the website:
