

WebMaster

Jennifer Zelony

With a repeat of every month please send in your flyers and pictures of what you are doing within your Auxiliary so we can show others around the state and country what we do here in Michigan. The website reconfiguration of updating the code is getting completed. That means we are on time frame of getting our Department Auxiliary Facebook page in the works which I am hoping will be up and running by fall conference this October 9-11th, 2026.
