3rd Vice Community Service

We just had our tour to Pas was a great group of 22 members with AMVETS, Auxiliary and Sons. We had the privilege to have not just 1 but 2 members from National 3rd Vice Faye Richardson Green and her husband Bob and National District commander Richard Shea and his wife. We had the ability to see the facility, get a chance to interact with some of the dogs that were on campus here, and how the training of these animals went through to get them to their caretaker. Now remember that the Department of Michigan 3rd Vice contest this year is the Auxiliary with the highest amount turned in thru the department for Paws will receive $50 towards next years projet so make sure you are out there working on your Paws fundraisers and make sure to get your money turned in on time so you are in for the contest. Which will be presented in June 2027 during the Convention.
